

# Multilayer paver machines

stationary

Proven stationary multilayer paver machines for the economical production of paving stones and similar elements.

## Highlights:

- Stationary adjustable vibration table
- Ravelling machine frame with locked mould and tamper head
- Optional face concrete device
- High-tech controls and visualization systems  
SIEMENS S 7 and SIEMENS OP 27
- Optional modem service

**Hydromat HP III A**

Type	Production area	Production height	Stacking height	Capacity
Hydromat HP III a (VA)	12500 x 1000 mm	from 60 to 400 mm	650 to 800 mm	abt. 120 cycles/h
